Good Literature

Widespread creation of similar groups was urged this week by the Torrance Committee for Decent Literature in making its annual report to the City Council. Chairman Dorothy Stoeckle said that the group had given its seal of approval to 26 new stands in the city and urged that the League of Cities and Board of Supervisors promote similar committees elsewhere.

Kiwanis Club Hosts Minority Orphans on Tour of Disneyland

Fairy tales came true for 29 children this week, when the El Camino Kiwanis Club waved a magic wand and transported them all to Disneyland. Crocodiles, Indians, savage Africans, moon rockets, river steamboats, Frontierland, Tomorrowland, and Fantasyland, all merged into one glorious day for these children whose own Tomorrowland is so much in doubt. John Donnelly, who is the "Good Fairy" in charge of arrangements for the Kiwanis Club, put it this way. "While people are fighting to get ordinary White Children, the County has many minority children who have to wait and wait for parents. We wanted to give these youngsters one big day and also let people see what wonderful kids they are. Surely, when it's known that children like these can be adopted, they will no longer be homeless. "Tommy is an example. His mother, an Indian maiden, did her best to make a home for him, even when his Irish father left her with full responsibility. Tommy has had a good start and is really a 'good Indian' and looks every bit the part, but now he

needs people. Indian like his mother, or White like his father, to be parents he can always have. "Little Barbara, whose parents are Negro, is now 5 years old and has never lived with her parents. Although the County Bureau of Adoptions placed several hundred Negro children since Barbara was born, they have never found a family who wanted Barbara, and for the life of me, I don't understand why some of the people who have had a chance for her, have not grabbed her up. She is a wonderful little girl. Little waiting is required for people who want to adopt these children and others of Negro, Mexican or Indian background. Applicants first learn about the adoption process and have a chance to ask questions at a meeting. After this, interviews quickly determine whether a family would like to meet one of the available children. Couples up to and in their early forties are preferred for infants. Older people may be considered for older children, and exceptions are made sometimes to get good parents for minority children awaiting homes. Infants, pre school and school age youngsters are available. Money in the bank and high wages are not required. There is a modest fee charged those families who can afford to pay, but this is not charged if it would make it difficult for the family. A phone call to DU, 8-0471, the County Bureau of Adoptions, starts the whole adoption process.
